# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

### Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

### **Situation Overview**

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

### **Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 12/26/20 at 1100 hours:**

- 80,442,779 (+1,022,313) total total confirmed cases in 218 (-2) countries.
- 1,761,366 (+17,197) total deaths.

### **Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 12/26/20 at 1000 hours:**

- 18,730,806 (+339,235) total confirmed cases.
- 329,592 (+4,496) total deaths.

### **Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 12/26/20 at 1100 hours:**

- 2,072,665 (+69,519) total confirmed cases.

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

No 911 Outages	No 911 Outages	No 911 Outages

### 9-1-1 Outage/Remote/Community Isolations

- [None Reported](#)

### Service Interruptions

- None Reported

# **WEATHER OF CONCERN**

## **NORTHERN CALIFORNIA**

- Impacts to travel still expected over the northern California passes and Interstate 80 due to snow.

## **SOUTHERN CALIFORNIA**

- A winter storm will affect the region Sunday night and Monday with widespread significant rain and mountain snow above about 4000 to 4500 feet.
- With ongoing precipitation over the weekend, Sunday will see peak rainfall rates up to 0.50", which will bring concerns for recent burn areas, in particular the Bobcat Burn Area.

### **Active Weather Warnings, Watches and Advisories by County:**

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# **WEATHER KEY POINTS**

**12/27/20 - 01/02/21**

## **Sunday-Monday Night**

- The next weather system will impact mainly the central and southern portions of the state, though some lighter precipitation is also possible across northern California. Potential impacts include:
  - Locally heavy precipitation over the central and southern Sierra as well as southern California mountains, with a few thunderstorms also possible at times
  - Heavy accumulating snowfall generally above 4,000-5,000 feet will lead to travel impacts
    - Light snow accumulations with travel impacts possible on lower passes, including the Grapevine
  - Minor mud slides or debris flows possible in the vicinity of recent burn scars, especially if heavier rain rates develop. Some minor urban flooding also possible across southern California.
- Periods of high surf and an increased rip current threat will exist Sunday into early Tuesday for coastal areas of southern California

## **Tuesday-Saturday**

- Dry weather statewide Tuesday and Wednesday
- Next storm system expected to bring additional precipitation to northern California late Wednesday through Thursday
- A series of storm systems will likely continue across primarily northern California through next weekend and into the beginning of next week

# CALIFORNIA WEATHER IMPACTS

12/27/20 - 01/02/21
